

WHITE CHRISTMAS TREE
FARM & NURSERY

Tree Selection

1. Know what size (height and width) you want before going to the farm so that you do not over buy.
2. Research the species you would like on www.whitechristmastreefarm.com. Depending on your decorating theme some species' characteristics will better suite your needs such as more open foliage or stiffer branches.
3. Go to the farm during the brightest time of day to get the best view of trees.
4. Check the tree trunk to be sure that it is adequately straight, has a long enough handle, and an appropriate diameter to fit your stand.
5. Ask about the pricing policy before heading out in the field.
6. Make buying a real Christmas tree a fun family tradition with White Christmas Tree Farm & Nursery.
